

Original PUR.MASH

Because the Original Höveler PUR.MASH recipe is free of grains and molasses this feed is perfectly suitable for horses with metabolic problems, laminitis and/or allergies.

PUR.MASH is gentle on the stomach whilst ensuring the best possible supply. It includes many prebiotic ingredients which help contribute to the stability of the colon

flora. Mucus substances such as linseeds and psyllium seeds protect the stomach and intestinal tract and therefore reduce the risk of acidosis (disruptions in the acid-base-household).

The improved intestinal activity promotes healthy digestion and the overall well-being of the horse.
