

BACTOCELL FARM is a complementary feed containing the live bacteria *Pediococcus acidilactici* CNCM I-4622 (MA 18/5M).

This strain has been selected for its capacity to enhance the nutrition and support health of monogastrics through:

- conversion of complex nutrients into lactic acid (L+) that aids digestion and regulates the intestinal microflora;
- helping protect against non-beneficial bacteria.

CHARACTERISTICS AND APPLICATION

Appearance: fine white powder.

BACTOCELL FARM can be used in premixes and in mash feeds.

It is formulated for optimal flowability in transfer systems (e.g. silos) and homogenous distribution in feeds.

BACTOCELL FARM can be used in all feeds and is compatible with most ingredients such as feed additives and feed materials typically used in feeds for pigs and poultry.

COMPOSITION

Calcium carbonate, inactivated yeast *Saccharomyces cerevisiae*.

Additives:

Pediococcus acidilactici CNCM I-4622 (MA 18/5M) - Gut flora stabilisers (4d1712)..... 8x10⁹ CFU*/g

* Colony Forming Units

DIRECTIONS FOR USE

PIGS (piglets (suckling and weaned), pigs for fattening, minor porcine species (suckling, weaned, and for fattening)):

≥ 125 g/t of complete feed (≥ 1x10⁹ CFU/kg complete feed)

SPECIFICATIONS

Microbial specifications:

Salmonella sp. Negative /25g

Enterobacteria < 1 000 CFU/g

REGULATORY AND QUALITY INFORMATION

This product does not contain animal substances nor product or ingredient that might pose a TSE/BSE risk.

Moreover, it does not contain genetically modified material or organism.

Authorisations in the European Union (regulation (EU) No 2020/151):

- Gut flora stabilisers – 4d1712: All porcine species for fattening and for breeding, other than sows; and for all avian species.

SAFETY INFORMATION

Wear personal protective equipment, including breathing protection, when handling the product.

STORAGE AND SHELF LIFE

Store in a cool and dry place, in its original unopened packaging.

Shelf life and composition of the product are guaranteed for 12 months from date of production under these conditions.

PACKAGING

20 kg card box containing 4 aluminium sachets of 5 kg each.

Not all products are available in all markets nor associated claims allowed in all regions.
