

## Product Certificate

Jørgen Kruuse A/S hereby declare the following details regarding the mentioned product

**Product number**

310789, 310872, 310880.

**Product name**

Phosphate paste

**Product type**

Dietetic Complementary Feed for Dairy cows / ruminants.

**Special nutritional purpose**

Reduction of the risk of milk fever.

Phosphate paste is a product rich in phosphorus mixed with the energy booster propylene glycol. The food supplement is recommended for cows in connection with calving in herds where particularly low blood phosphorus values are known to occur at calving time. Particularly low phosphorus values occur in some atypical cases of milk fever, etc.

Produced in Denmark for Jørgen Kruuse A/S.

Registration no. in The Danish Plant Directorate: α-208-G751902.

**Feeding programme**

1 tube 4-8 hours after calving and if necessary again 12-24 hours later.

As phosphorus supplement following veterinary treatment of milk fever:

1 tube when the swallowing reflex is intact.

**Contents**

Sodium hydrogen phosphate	57,3%
Propylene glycol	34.0%

**Technological feed additives**

<b>Feed additive</b>	<b>E – no.</b>	<b>Category</b>
Xanthan Gum	E415-	1c
Potassium sorbate	E 202	1a
Ethyl cellulose	E 462	1 c

**Shelf-life**

18 months

**Size**

4 x 350 g

**Last revised:**

30-jun-2011

**Version:**

4

**Signed**

Inge Merete Jensen

**Function**

QA Manager
