Product number

310764

Product name

Vomacidose

**Product type**

Dietetic Complementary Feed for Dairy cows / ruminants.

Special nutritional purpose

Reduction of the risk of Acidosis.

Acidosis Paste Contains magnesium oxide with antacid effect and other useful nutrients for ruminants with rumen acidosis. The paste also stimulates the rumen flora.

Acidification of the rumen occurs, for example:

- 1) when feeding excessive amounts of feed rich in carbohydrates such as sugar beets and cereal.
- 2) in the recovery period where the appetite was reduced or irregular
- 3) after sudden feed changes
- 4) at beet or grit poisoning which always requires veterinary assistance.

Feeding programme

One tube per cow twice a day for 2-4 days.
